NAJAD
YACHTS *of* SWEDEN

Since 1971, we have been designing and building fine sailing yachts that offer a balanced mix of performance, handling, comfort and security at sea.

When you choose Najad you join a family of people who share your passion for the very best. A passion that is reflected in every detail of the design, craftsmanship and performance of these exceptional sailing yachts.

Developed by leading designers and handcrafted at our boatyard in Orust, Sweden, every Najad we produce carries forward our proud heritage and passion for quality.

Designed as ocean-going yachts that can be handled by two people, every Najad is capable of sailing around the world. You may be sailing closer to shore, but it's good to know that your yacht will take care of you whatever the conditions.

Combine these qualities with beautiful design and exemplary craftsmanship and you have the perfect yacht for those who demand the very best.

Whether you are heading out to the horizon or sailing along in sheltered water, it's wonderful to know that you made the right choice.

Najad 355 10.90 M

WATER CAPACITY:	~ 800 L
HOT WATER HEATER:	~ 60 L
FUEL CAPACITY:	~ 1200 L
HOLDING CAPACITY (2):	~ 140 L

Najad Classics

Najad Classics will appeal to those who relish the more traditional yacht design values, yet wish to retain the advantages offered by modern technology.

A Najad Classic makes a subtle statement of intent – with features such as teak decks and an epoxy-encapsulated mahogany coach roof, old-fashioned fresh-air vents, stainless steel portlights and windscreen.

The interiors maintain the legendary Najad attention to detail, with white panelling, mahogany, and brass fittings evoking the spirit of yesteryear, whilst offering generous space and extreme comfort.

The Najad 380 and 511 have the option of being fitted out as Najad Classics, to suit your own personal taste and style.

Come and meet the people who will be with you on this exciting journey – the designers, craftsmen and sailors who will help you realise your dream.

Sail a Najad from the marina and get the feel of her under your feet. Experience the feeling of confidence and enjoyment she inspires. Discuss with us your plans and dreams and we'll help make them a reality.

When you refuse to accept compromise, you'll embrace Najad. And that is the start of the journey . . .
